I'm sorry I haven't quite done the PUENTE, but all the chords are the same. I've only managed to play it on piano let alone my guitar. It's crazy Ben Folds stuff that was intended for guitar it's one of his "I'm a nerd on a piano and can kick all you guitar players arses." Which is very true.

I wish the guitar were a nerd device; I'd be in my element.

p.s. You may only copy this song if you promise me you are not playing the guitar to cool. Music should never be about the IMAGE. If so, I'll kick your arse, steal your guitar give it to someone who really gives a shit about music.
