[Intro] D A G

D A G

D G D G

D A

Here I am again

G D

Waiting on the moment you decide

A G

To leave me stranded on the edge of nowhere

D A G

I've been so close to you so many times

D

I feel like I could drown

A G

I wish that I could fly away from here

Bm G

But I'm still coming down

A

From the last time

Bm G

That you came around

A

In the starlight

Bm G A

Now I'm pulling to your gravity

Spinning helplessly

Em A

I'm falling through the night

Em D G

Like a lonely satellite

D G

Like a lonely satellite

D A

We walked on Jupiter

G D

Fool around the moon a time or two

A G

Left a mark on every star we could find

D A G

But now I'm burning like a meteor

D

That never hits the ground

A G

Wish that I could fly away from you

Bm G

But I'm still coming down

A

From the last time

Bm G

That you came around

A

In the starlight

Bm G A

Now I'm pulling to your gravity

Spinning helplessly

Em A

I'm falling through the night

Em Bm

Like a lonely satellite

A

Love is poisoning the atmosphere

G Bm

Is keeping everything unclear to me

D

Something in your eyes

A

Never satisfies

G D A G D A G

I'm feeling so alone, tonight

Bm G
