Intro: F C Dm Bb

F C Dm Bb

It's summer...

         F   C

The heat is blazing like the fourth of July

              Dm

I got the air come on

              Bb

And its blasted on high

              F

So just grab something cool

              C

And jump in your ride

    Dm   Bb

Pick up everybody, I'll be waiting outside

        F   C

Whoa, Whoa

    Dm   Bb

The summer's not hot without you

(Hope to get to see ya)

```
        F   C
    Whoa, Whoa
      Dm            Bb
The summer won't start without you
              F
The temperature is 99
              C
And it can get so much higher
            Dm
So come over Romeo
            Bb
And vamos a la playa
        F    C
    Whoa, Whoa
            Dm
The summer is not hot
              Bb
The summer won't start without you
      F C Dm Bb
The summer's not hot (2x)
    Till you show up
The summer's not hot (3x)
    Till you show up
      F C Dm Bb
    It's summer...
(F C Dm Bb) <- O resto é tudo igual.
You're the reason that I jumped in my pool
'Cause you're so hot that I gotta get cool often
All your friends, just bring them along
    Hurry up and meet me
```

There's a party going on

Whoa, Whoa

The summer's not hot without you

(Hope to get to see ya)

Whoa, Whoa

The summer won't start without you

The temperature is 99

And it can get so much higher

So come over Romeo

And vamos a la playa

Whoa, Whoa

The summer is not hot

The summer won't start without you

Till you show up (4x)

In my heart it's freezing

I am wearing a bikini

And I know the sun is beating down

Wherever you may be

The summer's not hot to me (3x)

Till you show up

The summer's not hot (3x)

Till you show up

Whoa, Whoa

The summer's not hot without you

(Hope to get to see ya)

Whoa, Whoa

The summer won't start without you

The temperature is 99

And it can get so much higher

So come over Romeo

And vamos a la playa

Whoa Whoa

The summer is not hot

The summer won't start without you

The summer's not hot to me (2x)

No matter what the temperature reads

The summer's not hot to me

It's not hot to me

No matter what the temperature reads
